

2021 Coupe de la Jeunesse

## COVID-19 Prevention plan

Entering the regatta grounds is only permitted for participants, visitors and officials who can provide evidence of a low epidemiological risk. As evidence of a low epidemiological risk, the following shall apply:

1. Evidence of a negative result of a SARS-CoV-2 antigen test for self-testing recorded in an official data processing system and the acceptance of which must not have been more than 24 hours ago;
2. evidence from an authorised body of a negative result of an antigen test for SARSCoV-2, the acceptance of which must not have taken more than 48 hours ago;
3. evidence by an authorised body of a negative result of a molecular biological test for SARS-CoV-2, the acceptance of which must not have been more than 72 hours ago;
4. a medical certificate of infection with SARSCoV-2 in the last 180 days, which has been confirmed by molecular biology,
5. proof of a centrally authorised vaccine against COVID-19 has been provided (a) initial vaccination from the 22nd day following the first vaccination, which must not have been more than 90 days ago, or (b) second vaccination, which may not have been more than 270 days ago, or (c) vaccination from the 22nd day following vaccination for vaccines for which only vaccination is provided (d) vaccination, provided that at least 21 days before vaccination there was a positive molecular biological test for SARS-CoV-2 or evidence of neutralising antibodies prior to vaccination, provided that vaccination was not more than 270 days ago;
6. a segregation notice if it has been issued to a person demonstrably infected with SARS-CoV-2 in the last 180 days prior to the intended testing;
7. evidence of neutralising antibodies not older than 90 days. If evidence cannot be provided, a SARS-CoV-2 antigen test for self-testing shall exceptionally be carried out under the supervision of staff. The negative test result must be kept ready for the duration of the stay.

Evidence must be submitted in Latin script in German or English or in the form of a certificate in accordance with § 4b (1) of the Epidemic Act 1950 (EpiG), Federal Law Gazette No. 186/1950.

### **MASK REQUIREMENT AT THE ENTIRE REGATTA AREA – REGULARLY DISINFECT AND WASH HANDS**

#### **I. Scope of application**

##### *1. Time period*

The following rules apply from the arrival in Linz/Ottensheim until the final departure even outside the officially announced training and competition days.

#### **II. General Regulations**

1. Only athletes and their support team are allowed into the premises of the event. Guests are only allowed in the stands and spectator area and must also follow Covid-19 rules. Any person who has COVID-19-related symptoms is not allowed to participate. She must not enter the premises, must remain isolated, consult a doctor and follow his instructions. This also applies in the case of face-to-face interaction with a third party with COVID-19-related symptoms. The emergency doctor can be contacted at any time in case of an emergency on the regatta course.
2. **All participants must** complete a health check form prior to the event to provide information on possible risks of infection. The form should be completed 72 hours before the first arrival at the Venue access point and submitted electronically 72 hours before arrival.

According to the Covid prevention concept of the Upper Austrian health authority:

- Before entering the event site, the body temperature is measured using a non-contact thermometer
- A test station is located near the regatta course (anti-gene only)

3. If the participants experience Covid-19-related symptoms or have questions after arrival in Linz/Ottensheim until the end of the event, the athletes are obliged to report immediately to the emergency doctor, who is directly at the regatta course on site.
4. If Covid-19-related symptoms occur during the stay or within 14 days of departure, the athletes are obliged to inform the OC accordingly about **office@rudern-ooe.at**
5. In case of confirmed infection during or within 14 days of the event, the OC will be informed according to all participants.
6. Common Covid-19 related symptoms include fever, dry cough, sore throat, odor disorders, diarrhea, fatigue, headache, and shortness of breath.
7. The wearing of a mouth-nose protection is mandatory on the whole event site with the exception of the boats and the victory jetty
8. Everyone is obliged to adhere to the general rules of personal hygiene, including regular disinfection of the hands and compliance with sneezing etiquette. Appropriate hand sanitizers are provided by the OC.
10. To reduce contact/contact points, all doors are kept open with the exception of the doors to the sanitary facilities and the fire doors.
11. The following places of general use are regularly cleaned and disinfected in frequently visited areas:
  - door handles and door handles,
  - Handrails,
  - light switches,
  - additional grip zones, water dispensers.

The cleaning and disinfection activities are documented in a cleaning protocol.

### **III. Special arrangements**

#### **1. Sanitary facilities**

- a) The changing rooms and showers may be closed throughout the event. This depends on the local regulations at the time of the event.
- b) Toilets are cleaned and disinfected every 2 hours.
- c) The cleaning and disinfection activities are documented in a cleaning protocol.
- d) Showers at the venue are not allowed

#### **2. Catering**

- a) The disinfection of the hands with the hand disinfectants provided by the OC is mandatory when entering and leaving the catering tent.

#### **3. Team tents**

- a) Teams have no possibility to bring and set up their own tent.

**Covid-19 guidelines depending on local regulations and the current situation!**
